Newcelpaper
Est 1973
Manufacturers of Disposable Paper Products

NOW OPERATING
24/7

One of the UK and Ireland's largest manufacturers of 'own brand' paper disposables.

CAPABILITY

Newcel Paper have been manufacturing and supplying 'Away From Home' (AFH) paper disposables to professional distributors for 47 years.

We have an 80,000 sq ft factory, four robotic production lines, operate 24 hours a day, 7 days a week and manufacture over 2500 pallets of paper products per week.

We employ 50+ highly trained and motivated staff, many of whom have been with us for over 20 years.

RELIABILITY

Our four production lines are covered by an extensive 'preventative maintenance programme' which minimises downtime and maximises productivity.

We continually invest in the fastest and most efficient robotic machinery to ensure that we have the additional capacity to fuel your sales growth.

We hold substantial stocks of raw materials guaranteeing a consistent, uninterrupted supply of your paper disposable products.

AFFORDABILITY

Our purchasing department negotiates 'lowest price – long term' supply agreements with quality audited paper mills worldwide.

We implement 'Lean Manufacturing' practices – maximising production efficiency and driving down costs.

These principles shape our business model ensuring that we offer the very lowest prices to independent owner-manager distributors and large multi-nationals alike.

FOOD SAFE

All blue centrefeed rolls manufactured by Newcel Paper are made from certified FoodSafe paper and FoodSafe dyes.

Disposable paper products used in the foodservice sector and the food manufacturing industry must comply with European Community Regulation No.1935/2004.

We laminate our centrefeed rolls using nothing more than pure water – a process called ‘Hydro-lamination’.

By **NOT** using glue, we remove the risk of glue chemical contamination from all food preparation areas.

QUALITY CONTROL

Newcel Paper operates a quality control culture in which all employees have a responsibility within their own work areas to help ensure that premium quality is guaranteed.

We are full members of the CHSA who audit our products to ensure that they comply with comprehensive industry codes of practice.

All procedures within Newcel Paper are approved to internationally recognisable accreditations including ISO 9001:2015.

OWN BRANDING

We manufacture paper disposables for some of the biggest names in the business.

Over the past 47 years we have quietly grown from being a local manufacturer in Ireland to the ‘go to’ supplier of choice for own brand paper disposables in Ireland and the UK.

Our design team use the latest Adobe Creative Software to design and produce the artwork for your labels. After proofing and revisions, your labels are then printed using a state of the art Nilpeter 6 colour + UV varnish printing press with the capacity to print 90,000 labels per hour.
