

Essential Products Made Simple

Welcome To Newcel Paper

About Us:

Newcel Paper was established in 1973 and is a multi-award winning, third generation family owned business, which manufactures branded and private label disposable paper products for the Foodservice, Hygiene, Janitorial and Cash and Carry sectors throughout Ireland, the UK and Europe.

Production Capabilities:

Our fully robotic production lines operate 24/7, producing more than 5000 pallets of consistently high quality paper products per week.

Our 'next generation' production facilities are highly audited and exceed the exacting standards of our most stringent and professional customers. We invite you to visit our facilities and witness the future today.

Private Label:

We specialise in the manufacture of 'Private Label' paper products for some of the biggest names in the business including; Booker, Makro, Bunzl, Sysco, Musgraves, Sugro, Hendersons and BWG.

Irrespective of your volumes, we welcome all private label enquiries and guarantee that you will love our prices, quality and aftersales service.

Sustainability:

We're passionate about sustainability and always have been. We pioneered the use of recycled paper over 50 years ago even though it was less popular at the time.

We continue to champion all things 'Green' with 66% of our electricity coming from renewables, by utilising electric cars and forklifts and by delivering our products on Euro 6 compliant trucks.

Delivering Dependability:

We operate our own fleet of Bio-Diesel fuelled trucks, which emit 11% less carbon monoxide and 10% less particulate matter than regular diesel vehicles. This ensures that your order arrives reliably 'on time - every time', in perfect condition and contributes positively towards a cleaner, healthier and safer world for us all.

CHSA Membership:

Newcel Paper is a full member of the prestigious CHSA Soft Tissue Standard.

Membership of the CHSA involves independent, quarterly audits of our product length, width and sheet count.

The CHSA logo is your guarantee that the specification and quality of our product exactly matches those stated on the product label.

Awards:

We are proud winners of the '2023 Booker Supply Partner of the Year Award', the '2023 NI Family Business of The Year Award' and our Managing Director recently received the '2023 NI Business Woman of the Year' award.

PLASTIC FREE

FOOD SAFE

Why use paper wrapped co

Our planet can no longer tolerate a culture of throw-away single use plastics which are choking our rivers, contaminating our oceans and killing our marine life.

It is estimated that 12 million cubic tons of plastic enter our oceans every year and with over 90% of plastic not being recycled, it is easy to see how recycling alone will never solve this problem.

Our Oceans Deserve Better -

Centrefeed rolls?

Plastic is Drastic
Switching just 1 truck load of
centrefeed rolls from plastic
wrap to paper
wrap saves the
equivalent of almost
2000 x 500ml
PET bottles.
